AOSEPT® Disinfectant CIBA Vision Consumer Product Material Safety Data Sheet

This Consumer Product Material Safety Data Sheet (CPMSDS) is intended solely for end-users of this product or any agent distributing or selling this product. Those individuals that come into contact with any of the components of this product in a manufacturing setting should refer to the Material Safety Data Sheet (MSDS) on file at his or her workplace.

Section I: Product Identification
--

Product Name:	AOSEPT® Disinfectant
Address:	CIBA Vision 11460 Johns Creek Parkway Duluth, GA 30097
Emergency Phone Number:	(800) 424-9300
Date Prepared:	December 7, 1994

Section II: Composition/Information on Ingredients

HAZARDOUS INGREDIENTS:

CHEMICAL NAME:	Chemical Abstract Service #	PERCENT (by weight)
Hydrogen Peroxide	CAS # 7722-84-1	3%

Section III:

CIBA Vision AOSEPT® Disinfectant is used to disinfect soft (hydrophilic) contact lenses. You **must** neutralize the lenses after disinfection, according to directions with the AOSEPT lens cup and disc, and before inserting into your eye. Failure to do so may result in injury to your eyes.

If AOSEPT® disinfectant that has **not** been neutralized gets into your eye, you may feel a stinging or burning sensation which can cause redness and tearing. Immediately flush (rinse) the affected eye with water or saline for no less than 5 minutes. Hold eyelids apart to ensure rinsing of the entire eye surface and lids. If a sensation or stinging, burning and/or irritation remains, seek immediate medical assistance from an eye care professional.

Section IV: Handling and Storage

Storage Temperature:

Store at room temperature.

Shelf Life:

Expiration dating listed on each package.

Section V: Regulatory Information

**United States Food and
Drug Administration.**

Class II Medical Device
